

Group.IT for ACT!

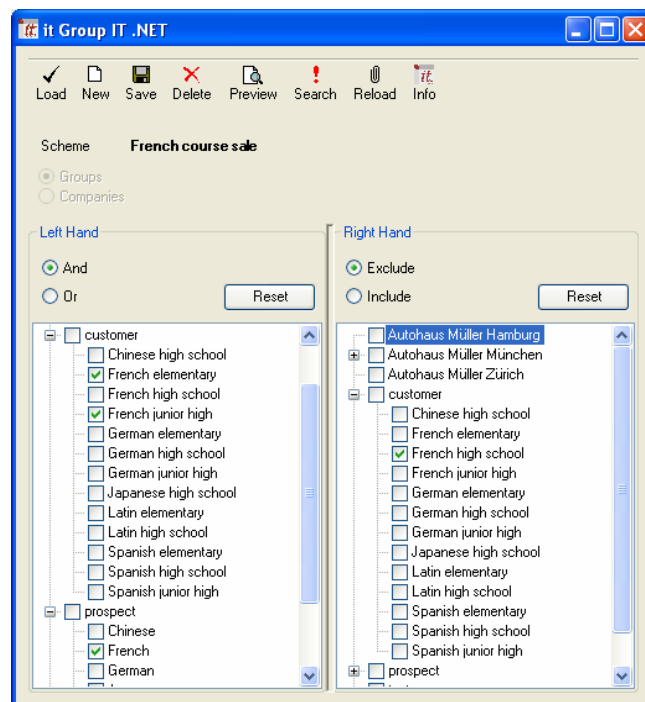

Manage and search groups in ACT! 2005, 2006, 2007, 2008 and 2009!

Search multiple groups and/or companies!

Unique and significant improvements for all ACT! users.

Highlights:

- Makes more effective use of ACT! groups in users' CRM software solutions
- Includes or excludes groups from a search with a single click
- Includes "And" and "Or" searches to help users refine their searches
- Allows the same search functionality for companies as it does for groups
- Searches multiple groups without duplicate entries
- Allows the sending of messages to multiple groups without duplicate entries
- Greatly enhances the usefulness of ACT!'s Groups function
- Allows users to find the contacts they wish to reach quickly, efficiently, and without duplication

Finds contacts quickly, efficiently and without duplication!
